President's Message...

“Covid Covid Covid” was the buzz word

I would like to commence my message by thanking each member of the SLAP committee who stepped up and played their part to achieve the results set out before you in our Annual Report.

We the committee decided to take the bull by the horn so to speak, and step over covid and take advantage of covid by stepping on to a learning culture and expand the print market by going global. Whereby we took advantage of virtual platforms and concentrated on government lobbying which brought in amazing achievements

As we came together to rebuild and renew, the committee members were stretched to the limit to deliver in the shortest possible time, to the highest quality. Strengths of our team arose to the occasion proving their ability to implement solutions

Below are the major achievements during my tenure as the president of the Sri Lanka Association of Printers and I must say that I enjoyed being a part of each and every one of them. It was very challenging and yet an exhilarating experience.

- » **5% Growth in Exports in printing year on year**
- » **Training program every month**
- » **Double taxation benefit on commercial printing to the customers**
- » **Negotiating printing as an essential service**
- » **Adviser to the Ministry of Industries, Education Department,**
- » **Board member of the employers' federation**
- » **Member of the governing body of Sri Lanka Institute of packaging**
- » **Joining force with MARCOM to lobby together**

The executive committee members were extremely conscious that our decisions impact the Industry and future generations while being committed to steer the association through the stresses and precariousness of the present, with a commitment to ensure it is geared to perform in a world that has reset.

In conclusion, on behalf of the executive committee of the Sri Lanka Association of Printers, I thank all our members for the support extended to the association and I also wish to thank the committee members and staff of the association for their unstinted commitment and cooperation throughout, and in particular, during this unprecedented challenging period.

General Secretary's Message

I would like to extend sincere greetings to the Executive Committee, Members of the printing fraternity, FESPA, SLPMA, EDB and Administration staff of SLAP with a profound sense of gratitude. Annual Report 2020/2021 gives me an opportunity to reflect, revive and refresh Sri Lanka Association of Printers' journey in the past year.

We are aware the current socio-economic scenario globally has affected the industry's rapid growth. However, despite the challenges during the past year or so, SLAP have managed to sustain and maintain its presence by initiating different activities like Breakfast with CEO Forum, Youth Forum, Seminars and Webinars related to the industry concerns such as 'Price hike in raw materials'. In this case, I must thank President Mr. Delan Silva, for his continues effort to find avenues to generate revenue and for withstanding these difficult times. Special thanks are extended to all sponsors, who came forward to support the Association in numerous ways.

Having faced quite a bit of obstacles, we managed to publish two issues of the Sri Lanka Print Magazine yet been able to once again generate an income incurring the minimum costs.

I also would like to pen that the attendance, active participation and commitment of the Executive Committee was quite poor. In most occasions, we saw the same faces contributing and demonstrating their effectiveness in delivering the SLAP's vision. With utmost respect, I request all members to appoint an Executive Committee who genuinely contribute to SLAP vision by getting engaged in its activities to lift up the industry.

We, Sri Lanka Association of Printers, will remain faithful to its vision of the efficiency, inclusive growth, industry reliance and welfare of the printing fraternity and leverage the strengths of the SLAP member institutions that have rich and diverse knowledge, expertise and best practices to enhance the printing industry in the global platforms.

As the closing line, I would like to ask each member of SLAP to pat themselves, for making through a difficult phase in life, in business and in general this far. For that each one of us needs to continue holding up our heads up, and work towards a mutually benefitted industry that can indulge discipline, commitment, innovation, profit and recognition.

Last but not least, 'Remember, an industry that feeds you is an industry worth fighting for'.

OPERATIONS REVIEW

STRATEGICAL APPROACH 2020 – 2021

President of SLAP Mr. Delan Silva embarked on a new strategical approach to enhance the scope of the activities undertaken by SLAP. The new strategical approach was launched in five main paths; Training & Development, Quality Management and Certification, Membership Services, Industry Involvement, and Specialist Services - Rebranding of SLAP.

1) Training and Development

SLAP focuses on new technological developments in the printing industry, and initiatives were taken to introduce courses and degree programmes related to the printing industry to facilitate the availability of professionally qualified persons for the industry. Mr. Nidesh Kulatunga was appointed as the chairman of the project. The training and development were focused on the following aspects.

- a) Identifying qualified printers: Introducing a recognition logo and certificate, which could identify qualified printers.
- b) Academic qualifications are a necessary qualification from a recognized training institute SLIOP / INGRIN /VTA/ NAITA/ Foreign qualification.
- c) Demonstrate experience and knowledge: the necessity of having an expected knowledge and experiences in related aspects of printing.
- d) Print shop minimum requirements: the necessity of establishing machine training requirements, workforce, and the available in-house resources.
- e) Connecting with schools and SLAP Youth: the necessity of organizing seminars on packaging/printing and designing, branding, future printing methods to attract youth.
- f) Apprenticeship: the necessity to establish apprenticeships where it's needed, and give hope to get a permanent job.

2) Quality Management and Certification

The SLAP launched the project to introduce quality management systems in printing companies and ExCo member Mr. Viraj Jayasooriya was appointed as chairman of the project. Brainstorming Session of ExCo members was held on 19th August 2020 at SLAP premises to discuss and formulate the plans to conduct awareness programmes on Quality Management System in member companies. Mr. Viraj Jayasooriya made the presentation and explained the Quality Management System, the Japanese 5S System, and ISO 9001 Certification. It was proposed to implement a quality management process in member companies of SLAP in stages to achieve quality standardization and certification and to facilitate the enhancement of productivity, profit and globally accepted recognition. The following process would be adopted to achieve quality standards.

- a) To arrange a factory visit to provide an understanding of the Quality Management System practice in the factory.
- b) Educate and introduce 5-S process
- c) Educate and introduce ISO Certification

3) Membership Services

SLAP initiated the project to provide membership services to address the issues in HR and administration encountered by members. Mr. Nishantha Perera was appointed as the chairman of the project. The membership services would include the following areas and the issues faced by printers would be identified after a discussion based on the outcome, the exact nature of membership services needed would be decided.

- a) Health & Safety: Health and Safety and Working Environment and Products
- b) Human Resources: Managing the Human resource, training and overall development of the most valuable resource in the organisation.
- c) Recruitment: How to identify and recruit the correct people to the task in hand.
- d) Legal Professional Services for Members: Support required for legal issues faced in the organisation and the means of resolving such issues.
- e) Environmental: Managing and protecting the Environment by practising Environment-friendly manufacturing practices and using sustainable Raw Material

4) Industry Involvement

The industry involvement program was initiated to ascertain the issues encountered by the printers and suppliers of different categories, and Mr. Himel Ariyasena was appointed as the chairman of the project. As the first step, it is necessary to obtain the statistical data and the issues encountered by printers and suppliers, and categorize them as large, medium and small scale companies, based on the gathered data. The 2nd step would be to formulate the strategies to address each segment. The success of this program depends on the willingness of the companies to provide the requested data. If the printers are not willing to provide the required data, it would not be possible to develop strategies to extend benefits to the printers.

5) Specialist Services - Rebranding of SLAP

The Executive Committee decided to launch the program on rebranding-SLAP to bring forward the SLAP as a strong brand and gain more recognition. Mr. Udaya Hettiarachchi was appointed as the chairman of the project and he presented his proposal based on rebranding. The proposal would be implemented in 5 progressive steps; the gathering of ideas and opinions of all stakeholders; analyze all data and revisit core values, mission and strategy; creating a marketing strategy based on feedback; align all revenue-generating activities with the new identity of SLAP; networking and strategic alliance with government and private sector organizations with a new SLAP identity. A committee comprising volunteers from the ExCo was appointed to launch the project and the committee decided to formulate a questionnaire to obtain views of members, preparation of a proposal letter, obtaining the views of Past Presidents, organizing a brainstorming session, holding a meeting among members of ExCo etc.

1) Ministry of Industries and Supply Chain Management

An instant licensing system for operating factories in curfew areas

A system was set up to issue immediate curfew passes to factories in areas where curfew was in place. Especially factories related to manufacturing, are considered to be essential for the operation and a system was introduced to issue immediate licenses by sending an email to the Secretary of the Ministry of Water Supply, through secretary@mws.gov.lk

2) Excise Department

A meeting convened by the Ministry of Industries and Supply Chain Management and top-level government officials from Excise Department and other relevant ministries attended the meeting to discuss the constraints encountered by importers of solvents.

a) The long delay in procedures to import and clearing of Solvents

SLAP informed that a long delay exists at present regarding importing and clearing of solvents, and the delays affect the production process adversely. Excise Department agreed to propose a smooth online system to reduce the delays.

b) A substantial amount of certificates involved in obtaining an annual licence

SLAP informed that importers have to submit a substantial amount of certificates such as environment-related certificates, fire prevention certificates etc. to obtain the annual licence. Excise Department agreed to propose a system to submit certain certificates only once, as well as to provide a grace period of few months when a time gap exists between the duration of the validity of the certificates and date of invoice.

c) Delays taking place in obtaining certificates in the entire process of importing, clearing and using of solvents

Long delays taking place in obtaining certificates in the entire process of importing, clearing and using of solvents, as it was necessary to visit Divisional

& District Offices of the department. Excise Department agreed to a system to issue certificates only through OIC of Divisional Office and the annual licence from the head Office

d) Adding Britten Compound to Solvents

There was a necessity of adding Britten Compound to solvents to prevent it using as Alcohol and this has affected the purity of the solvent. Excise Department informed that such requirement is not required at present as this requirement does not exist since 2018.

e) Nonexistence of Separate HS Code for Varnishes Used in Printing

Varnishes used in the printing industry are classified into two HS codes 32.08 for Solvent-based varnishes (like UV varnish) and 32.09 for Water-based Varnishes, and separate HS Code does not exist for varnishes used in printing and SLAP presented the following facts.

- ◆ 32.08 - Paints and varnishes (including enamels) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in a non-aqueous medium; solutions
- ◆ 32.09- Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in an aqueous medium.

HS Codes are paint-oriented classifications, which are not appropriate for varnishes used in printing. Since the intended purpose and the application process differ in the case of varnishes used in printing, and the existing HS Codes are paint-oriented classifications it is appropriate to incorporate a separate HS Code for varnishes used in printing. It was decided that SLAP should send the appropriate request in writing.

3) Ministry of Finance, Economy and Policy Development / Customs

a) Extension of Timelines for Taxes and Returns:

SLAP requested the government to defer annual income tax payments and income return submission till 31st March 2021. SLAP also, requested that the VAT returns submission timeline should be extended by three months for the quarter ending March 2020,

June 2020, and September 2020. In reality, most of the orders are on credit basis, and payments are received much later. Since the credit-collections are an acute problem in the present context, SLAP requested the relief on payment of VAT.

b) Importers under Temporary Import & Export Processing Scheme (TIEP)

Imports and Exports (Control) Regulations No. 3 of 2020 promulgated by the Minister of Finance, Economic and Policy Development on 30th June 2020, stipulated that the importer, who imports goods for process and supplies such goods (indirect exporter) to another exporter, required to submit Goods Received Note (GRN) within 14 days from the date of Customs clearance of goods to the Sri Lanka Customs. If such importer (indirect exporter) fails to submit such GRN within the stipulated period, the Sri Lanka Customs shall notify the same to the Controller General of Imports and Exports, and such importer (indirect exporter) shall be disqualified to import goods for process and supplies goods to any exporter thereafter.

SLAP wrote to the Secretary, Ministry of Finance, Economy and Policy Development and presented the practical constraints faced by such importers under Temporary Import & Export Processing Scheme (TIEP) to comply with instructions contain in the promulgated regulations. Sri Lanka Association of Printers (SLAP), appealed to the Secretary to consider the holistic view and make the necessary amendments to the Imports and Exports (Control) Regulations No. 3 of 2020. SLAP also kindly requested the ministry to liaise with SLAP, during the drafting process of the regulation, to submit our views to facilitate the smooth functioning of the entire operational process of export-related printing and packaging.

c) Request to Reconsider Import Duty on Paper and paperboard-HS Codes 48:10

HS Code: 481013 - Reels (Art Paper)

HS Code: 481019 - Sheets

HS Code: 481029 - Art Board, Sheets and Reels (Art Board)

SLAP presented to the ministry that the imposing of the 15% tax would increase the production cost and the retail pricing, where the end-user will have to bear the additional cost incurred. The printers in Sri Lanka have been producing education supplements,

which support the majority of students in Sri Lanka, enhancing their knowledge. Similarly, the increased production cost would adversely affect the competitive advantage of print exports, including the potential exporters of SME sector. Hence, SLAP requested to reconsider the import duty and support the publishers/education/export system, by reverting to the previous tax structure, prevailed before the budget.

d) Request to Waive-off CESS Imposed on Paper and Paperboard

HS Code: 48102900 - Ivory Back Folding Cartons & Boxboard

HS Code: 48114191 - Self-Adhesive Sticker Paper

SLAP informed the Ministry that CESS has been increased from 5% to 20% respectively in the 2021 budget and such increases adversely affect the local printing industry. Hence SLAP requested the ministry to reconsider the decision and waive-off the CESS imposed on indicated raw materials to facilitate the safeguarding of local printers, who are already facing severe financial burdens in the existing COVID-19 related hardships.

e) Request to Impose of Import Duty on Finished Print Products

SLAP presented to the ministry that several concessions have been granted by the 2021 budget to the importers of finished print-products, either through total waive-off or decreasing general import duty, adversely affecting the local printers. SLAP requested the ministry to impose import duty on these printed materials.

4) Export Development Board (EDB)

Export Development Board initiated an export promotion program to promote Sri Lankan print products in coordination with Sri Lankan High Commissions in Bangladesh, Chennai & Mumbai in India, and Singapore. The following table contains the responses received from printing and packaging companies in Sri Lanka.

COLLABORATION WITH GOVERNMENT AUTHORITIES

1) Ministry of Industries and Supply Chain Management

An instant licensing system for operating factories in curfew areas

A system was set up to issue immediate curfew passes to factories in areas where curfew was in place. Especially factories related to manufacturing, are considered to be essential for the operation and a system was introduced to issue immediate licenses by sending an email to the Secretary of the Ministry of Water Supply, through secretary@mws.gov.lk

2) Excise Department

A meeting convened by the Ministry of Industries and Supply Chain Management and top-level government officials from Excise Department and other relevant ministries attended the meeting to discuss the constraints encountered by importers of solvents.

a) The long delay in procedures to import and clearing of Solvents

SLAP informed that a long delay exists at present regarding importing and clearing of solvents, and the delays affect the production process adversely. Excise Department agreed to propose a smooth online system to reduce the delays.

SLAP wrote to the Secretary, Ministry of Finance, Economy and Policy Development and presented the practical constraints faced by such importers under Temporary Import & Export Processing Scheme (TIEP) to comply with instructions contain in the promulgated regulations. Sri Lanka Association of Printers (SLAP), appealed to the Secretary to consider the holistic view and make the necessary amendments to the Imports and Exports (Control) Regulations No. 3 of 2020. SLAP also kindly requested the ministry to liaise with SLAP, during the drafting process of the regulation, to submit our views to facilitate the smooth functioning of the entire operational process of export-related printing and packaging.

c) Request to Reconsider Import Duty on Paper and paperboard-HS Codes 48:10

HS Code: 481013 - Reels (Art Paper)

HS Code: 481019 - Sheets

HS Code: 481029 - Art Board, Sheets and Reels (Art Board)

4) Sri Lanka Institute of Packaging (SLIP)

Sri Lanka Institute of Packaging (SLIP) extended an invitation to Sri Lanka Association of Printers (SLAP) to join hands to hold Sri Lanka Print 2020 Exhibition & LANKAPACK 2020 on 8th, 9th & 10th of October 2020. Representatives of SLAP and SLIP discussed to ascertain the possibility of organising a joint exhibition and subsequently the Executive Committee of SLAP decided to obtain the views of sponsors and stallholders of Sri Lanka Print Exhibition regarding the joint exhibition. Some sponsors and stallholders consented to the concept of having a joint exhibition whilst some had reservations about the benefits of a joint exhibition to the SLAP membership. Almost all the sponsors and stallholders were not in favour of the dates - 8th, 9th & 10th of October 2020.

SRI LANKA PRINT EXHIBITION AND TRADE FAIR 2020/ 2021

Due to the prevailing Covid situation globally, the Exhibition was postponed to next year 2022 with indefinite dates. Since the postponement of the Sri Lanka Print Exhibition, SLAP had been in constant touch with BMICH and the management of BMICH confirmed the availability of BMICH on 26th, 27th and 28th of February 2021 (Friday, Saturday & Sunday) to hold the exhibition. Executive Committee of SLAP decided the views and the consent of the sponsors and stallholders should be ascertained before taking the final decision. Hence SLAP wrote to all sponsors and stallholders, requesting them to indicate their concurrence to hold the Exhibition on 26th, 27th and 28th of February 2021. Most of them responded and some opted not to respond. A great majority of sponsors and stallholders were not in favor of holding the exhibition in February without a clear idea of the situation that would prevail in February 2021. Hence the Executive Committee decided to reassess the situation in January 2021 and decide on the possible dates to hold the exhibition.

General Secretary Mr. Peter Deckker informed the ExCo that the letters were emailed to all the sponsors and stallholders requesting them to indicate their views regarding suitable new dates of 26th, 27th & 28th of February 2020. To hold the Exhibition. Presenting the details of the responses, he reported that he received the following

Agreed to the dates	=21%
Not agreed to the dates	=33%
Unable to decide now	=30%
Not responded	=15%

Due to the Covid 19 pandemics situation globally, during the 08th Executive Committee Meeting, after taking into consideration of the views by the committee, President declared the exhibition is postponed to next year 2022.

7. Appointment of the Auditors

Treasurer Mr. Selvam Ketees reported that the previous Auditor Mathews and Company sent a letter on 28 September 2019 informing that the company was resigning from the post on completion of the financial year 2018/2019 and requested SLAP appoint a new Auditor commencing from the financial year 2019/2020. He further reported that Executive Committee of Sri Lanka Association of Printers has approved the appointment of Kanesalingam & Company as the Auditor of Sri Lanka Association of Printers commencing from the financial year 2019/2020.

8. Appointment of the Company Secretary

Ms Dinusha Dilmini Jagodage was appointed as the Company Secretary of SLAP, proposed by Mr. Anil Kariyawasam seconded by Mr. Keerthi Gunawardane.

9. Motions, Resolutions & Other Suggestions

There were no motions or resolutions were received to present at the AGM.

Past Vice Presidents and other members made the following comments and suggestions.

- a) Members suggested that each ExCo member needs to indicate the contributions, he has made during the previous year, when a member of ExCo applies for a post in the next year.

- b) The Articles of Association of SLPMA does not provide provisions to wind up SLPMA and the only option available to MOU between SLPMA and SLAP.

- c) Members were of the view that the Lifetime Award should continue and members expressed ideas about the criteria for the award. It was also mentioned that a Past President of SLAP who has made an exceptional contribution towards the printing industry could be the criteria. It was also suggested that the newly elected ExCo could discuss and formulate the criteria and then views of the Past Presidents and other members of SLAP could be obtained to decide on the final criteria.

10. Vote of thanks

In conclusion, Mr. Peter Dekker, the General Secretary thanked all members, members of the Nomination Committee, and SLAP staff members for their generous support given to make the 60th Annual General Meeting a success.

Annual General Meeting

- ◆ The 60th Annual General Meeting of the Sri Lanka Association of Printers was held on 26th June 2020 at the Premises of Sri Lanka Association of Printers, No. 21, Mulleriyawa Road, Thalahena, Malabe.

After Signing the MOU (from left): Peter Deckker, General Secretary SLAP, Delan Silva, President SLAP, Asela De Livera, President NCCSL and Chamika Godamanna, Sub-Committee Chairman NCCSL.

ANOTHER MILESTONE BY SRI LANKA ASSOCIATION OF PRINTERS GOING GLOBAL WITH FROM SRILANKA.COM

The Sri Lanka Association of Printers (SLAP) has entered into a Memorandum of Understanding (MOU) with the National Chamber of Commerce of Sri Lanka (NCCSL) to facilitate the promotion of the NCCSL initiative, fromSriLanka.com online platform, among SLAP member companies. SLAP members will have the opportunity to feature their products and services and receive other special benefits on this platform which operates as an online B2B marketplace for Sri Lankan companies to promote their products and services to global buyers.

“This partnership is part of our vision to be the preferred partner for all printing solutions globally, paving the way towards being the Printing Hub of Asia. The EDB currently rates Printing as a very high potential export

growth sector” says, Mr. Delan Silva, President, Sri Lanka Association of Printers.

From srilanka.com is Sri Lanka’s one stop online destination to source all Sri Lankan made products and services. The platform will host thousands of Sri Lankan manufacturers and service providers, very soon enticing millions of global business buyers. “FromSriLanka.com platform is bound to make a significantly positive step in promoting foreign trade and earning valuable foreign exchange to Sri Lanka and would create a new era for Sri Lankan products and services in the Global Market” says Mr. Asela De Livera President of the National Chamber of Commerce of Sri Lanka.

The Sri Lanka Association of Printers as the apex body of the

Printing Industry has a rich history spanning more than half a decade, closely working with government, local and international organizations to harness the maximum benefits for their members. The association also seeks to develop the industry introducing modern technology and processes, skill development and by providing employment opportunities particularly to the youth of the country.

The National Chamber of Commerce of Sri Lanka has been the leading source in promoting and assisting domestic small, medium & large businesses island wide giving a special emphasis to SME’s, as well as foreign trade for over seven decades. ‘fromSriLanka.com’ will be a key part in fulfilling this objective of the Chamber.

Treasure's Report

It is a privilege to present the audited financial statement for the year ended 31st March 2021 under the leadership of Mr. Delan Silva. The whole world is fighting a pandemic, this has resulted in major inconveniences to every industry and printing is no exception. Being the apex body of the Sri Lankan print industry, the association's existence relies on the stability of the print fraternity of Sri Lanka. The external environment presented great financial difficulty towards our normal operation.

Most of our members were adversely affected in means of turnover and profit while overheads kept increasing. They were further cornered due to restrictions on import of raw materials, cost escalation of raw materials and lack of orders which heightened the competition. These factors negatively reflected upon our membership collection. We were left out of options as the time was not correct to exert pressure upon our members.

Added to this, the association was not able to hold much needed revenue generating projects namely the SL Print' 2020, Celebrity Ball, Cricket Carnival, Peduru Party, etc... Under normal circumstances, these events proved to be the lifeline of Association. But all these

were cut down with the dawn of Pandemic. Even, building rental incomes became nonexistent.

But, as a team we have been able to keep our heads above and swim through this difficult time. We had endured this year with great financial discipline and out of the box thinking.

Though the association was under substantial financial stress, we had not compensated on our obligation or responsibilities internally or externally. The association takes pride on its initiatives taken for the welfare of its members. We had conducted large number of online workshops, training sessions, lobbied on behalf of the industry, worked closely with government institutions to promote the industry globally, improved on the content plus quality of Print magazine and much more. Within the association, we had increased the salary of employees, paid bonuses, enhanced administrative procedures, insured our property for the first time and maintained the building in a good condition.

These were only possible due to great financial discipline and co-operation of all stakeholders. We had revisited all procedures at the associations and identified the cost drivers. Stationery, neglected maintenance, travelling, print consumables, extended paperwork, security, electricity usage, committee expenses are some examples. All these were streamlined which saved much needed cash. Employee remuneration was negotiated during only the first lockdown. CEO post was discontinued and replaced with an administrative secretary which accounted for some cost reduction. Payables were rescheduled or changed to installment terms through cohesive discussion with the relevant stakeholders. Overall the association has been placed in a well-balanced state to face its future financially.

A review of financial statements reflects that the loss has been reduced considerably compared to previous year. The loss made on 2020/21 period is Rs. 2,082,424.10 compared to the loss of Rs. 8,555,395 during 2019/20. Even during the challenging period we have earned new members and the membership fee has grown by 17%. FESPA

donations have been less by 55% compared to previous year. The administrative expenses have been curtailed by 31%. Overall reduction of expenses is 33%. Profit of Rs. 1,079,569.60 has been earned on projects.

Fixed deposits have shown an increase of 7%, even under the difficult circumstances the association has not tapped into its reserves. Bank overdraft has shown a reduction by 35%. Current liabilities especially the accrued expenses have shown a significant decline. The dues from SLPMA remain unchanged at Rs. 2,269,957.64. The investment in SLPMA reads as Rs. 29 million.

The major financial obligation is the advances collected for Sri Lanka Print' 2020. But, we foresee that with favorable pandemic recovery and collection of contractual balances from stallholders the event can be held without much financial redress and the event can be made a success.

I would like to sincerely thank all our Sponsors, Advertisers, Creditors, Suppliers, Past CEO, Administrative Secretary Accountant and Staff of Sri Lanka Printers Association and the Members of our association. I wish to place my special gratitude to the auditors M/s. Kanesalingam & Co for timely visit and completion of audit under tight schedules. I pay special thanks to the EXCO members especially its President and General Secretary for their unwavering support and encouragement to me in accomplishing my task.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF "SRI LANKA ASSOCIATION OF PRINTERS"

Opinion

We have audited the financial statements of **Sri Lanka Association of Printers**, which comprise the statement of financial position as at March 31, 2021, and the statement of income and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at March 31, 2021, of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Report on Other Legal and Regulatory Requirements

As required by section 163(2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

NOTES TO THE FINANCIAL STATEMENTS

KANESALINGAM & CO.

CONTINUATION SHEET

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also;

- ❖ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ❖ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Company.
- ❖ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ❖ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ❖ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ❖ Obtain sufficient appropriate audit Evidence regarding the financial information of the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2021

The liability to employees arises only on completion of five years continued service. This liability is not externally funded. The year-end provision is computed based on the number of years of service into half monthly gross salary of each employee.

The liability is not externally funded.

2.6.2 Defined Contribution Plans

Employees are required by the statute to become contributory members of Employees' Provident Fund and Employees' Trust Fund. Company contributes 12% and 3% of total earnings of the employees as required by the relevant statutes to Employees' Provident Fund and Employees' Trust Fund respectively.

Assets and Bases of Their Valuation

2.07 Non-Current Assets - Equipment

Equipment are measured at amortized cost. This comprises any cost directly attributable to bringing the asset to the condition necessary for it to be capable of operating in the manner intended by Management less accumulated depreciation (except for land and construction in progress) and accumulated impairment losses.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the income during the financial period in which they are incurred.

Depreciation on assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

Asset Category	Years
Computer and software	05
Vehicles	04
Furniture, fittings and equipment	10
Air conditioner and others	04

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Parts of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item are depreciated separately.

An asset's carrying amount is written down immediately to its recoverable amount if the assets carrying amount is greater than its estimated recoverable amount.

Gains and losses-on disposals are determined by comparing the proceeds with the carrying amount and are recognized within "Other (losses)/gains - net" in the statement of income.

When revalued assets are sold, the amounts included in other reserves are transferred to retained earnings.

Our Success

Financial Management” on Saturday, 25th July 2020

මෙය විශිෂ්ට සම්මන්ත්‍රණ සැසියකි. අපි නොදන්නා සහ අප ස්පර්ශ නොකරන බොහෝ ක්ෂේත්‍ර ආවරණය කිරීමට අපට හැකි වනු ඇත. අනාගතයේ දී ද මෙවැනි සම්මන්ත්‍රණ සැසි පවත්වන ලෙස මම කාරුණිකව ඉල්ලා සිටිමි.

This is a great webinar session, we could be able to cover a lot of areas that we don't know and we don't touch, I kindly request to conduct this kind of webinar session in future too.

I thank you for the invite extended to me.

It was marvellous and very educative.

Dr Lakshmi Priya was spellbound and the simple explanation was excellent.

Thank you and SLAP for a wonderful session conducted in spite of the Lockdown situation to fellow printers. Please continue your good work.

Saturday 22/8/2020. Zoom seminar

The resource person Mr Adrian was excellent and he did a marvelous job by giving the insights to the printers on Price Vs Quality.

It was more on how to negotiate pricing with customers.

The live scenarios were super. It was very interesting and very much suited to present day context.

I hope SLAP will do this type of Zoom seminars for the benefit of printers and may extend to our packaging industry as well.

My suggestion, you may request from the printers for a scroll ad (please find out the possibility) as sponsorship.

Dear SLAP Youth members,

I like to thank Mr Viraj for welcoming us into his factory. Usually, this kind of benevolence is rare but Mr Viraj shows how a true world class organization doesn't care for petty business norms. It was truly inspiring to learn that Atlas has an exquisite employee retention rate that I have never heard of before. This goes to show how effectively they focus on the culture of capability and respect. Atlas has won many awards but the most inspiring out of them were the world class excellence award they have received from APQO(Asia Pacific Quality Organization), which isn't a small achievement. This makes them a competent contender in their relevant industry at every level. Apparently, the journey started in 2010 and they've covered vast distance due to the perseverance and commitment of their management team. I wish them more abundance and success for the future.

This event broadened the intellectual horizons of each individual who attended it. I thank SLAP team for organizing this event and a special thanks for Mr Lenard whose support makes these events possible. Looking forward to more events of this caliber.
